

Fullstack Developer

Apply Now

Company: Azka IT Consulting

Location: Mexico City

Category: computer-and-mathematical

AZKA IT is a Mexican company that seeks and connects the best IT talent with Latin American and United States companies.

We are looking for your talent as a **Fullstack developer**.

Requirements:

Fullstack developer - .Net Core, Angular & SQL

Skills required:

English: intermediate-advanced

4+ years of proven experience as a .NET Developer or Application Developer

3+ years of experience in developing microservices based applications

2+ years of experience expertise in Frontend development using React Angular

4+ years of experience working with databases like SQL, MongoDB (or other non-relational DBs)

Familiarity with architecture styles/APIs (REST, RPC)

In-depth knowledge of .NET framework, C#, ASP.NET MVC, and Entity Framework

Experience with HTML, CSS, and JavaScript frameworks

Experience with Azure Pipelines and Git

Demonstrable understanding and practice of code development best practices

Main responsibilities

Design, develop, and maintain .NET-based web applications using languages such as C#, ASP.NET, Typescript and JavaScript

Utilize front-end technologies like HTML5, CSS3, and JavaScript frameworks like AngularJS, React, or Vue.js for creating dynamic user experiences

Develop and implement server-side logic using .NET MVC and/or .NET Core

Engage with SQL or other databases to store, manipulate, and retrieve application data efficiently

Participate in the entire application lifecycle, focusing on coding, debugging, and ensuring high performance and responsiveness

Collaborate with cross-functional teams to define and design new features

Perform unit and integration testing before launch and functional testing after deployment

Analyze user and system requirements, and prioritize, devise, and implement solutions accordingly

Implement security principles to protect sensitive user data and maintain data integrity.
