

Senior PHP Developer (Symfony)

[Apply Now](#)

Company: Software Country

Location: Mexico

Category: computer-and-mathematical

We have 30 years of expertise in designing and building custom software systems. We provide software development services focusing on complex high-load applications, AI and BI solutions, and mobile apps.

We are looking for a Software Engineer or Support Engineer with commercial development experience in PHP (Symfony) + JavaScript stack for cooperation with the US market. This role offers the opportunity for promotion to the development team of European Company.

Our client is Luxembourg Company specializing in a knowledge assessment system with expertise in various areas, including academia (universities and schools).

The Role

You will be responsible for :

Writing well-designed, testable and efficient code.

Gathering and evaluating user feedback.

Working as a part of a dynamic team to deliver winning products.

Providing code documentation and other inputs to technical documents.

Supporting continuous improvement by investigating alternatives and new technologies and presenting these for architectural review.

Troubleshooting and debugging to optimise performance.

Ideal Profile

Required experience and skills:

extensive experience with Symfony and PHP 7;

experience with JavaScript;

hands-on experience with MySQL/PostgreSQL, Redis;

Git;

REST;

English skills (both written and spoken) — Upper Intermediate+.

Nice to have:

Google Cloud;

Amazon Web Services.

What's on Offer?
