## SFDC Solution Architect

Technology Architect

115792BR

Job Description

### About Us

Infosys is a global leader in next-generation digital services and consulting. We enable clients in more than 50 countries to navigate their digital transformation. With over four decades of experience in managing the systems and workings of global enterprises, we expertly steer our clients through their digital journey. We do it by enabling the enterprise with an AI-powered core that helps prioritize the execution of change. We also empower the business with agile digital at scale to deliver unprecedented levels of performance and customer delight. Our always-on learning agenda drives their continuous improvement through building and transferring digital skills, expertise, and ideas from our innovation ecosystem.

Analyze the Enterprise technology stack

Define and document the overall technical vision for the Salesforce solution

Define the Data Elements and Derive External Keys needed to support the solution

Present proposed technology architecture structure, technology stack, behaviors, and other system aspects to the leadership team

Identify the development and implementation approach and ongoing maintenance to ensure the solution will fit the existing enterprise environment and meet the requirements of stakeholders

**Infosys is an equal opportunity employer and all qualified applicants will receive consideration without regard to race, color, religion, sex, sexual orientation, gender identity, national origin, protected veteran status, spouse of protected veteran, or disability.**
