

Software Applications Specialist, Division Quality

[Apply Now](#)

Company: Corning

Location: Reynosa

Category: computer-and-mathematical

Requisition Number: 62614

Corning is vital to progress – in the industries we help shape and in the world we share.

We invent life-changing technologies using materials science. Our scientific and manufacturing expertise, boundless curiosity, and commitment to purposeful invention place us at the center of the way the world interacts, works, learns, and lives.

Our sustained investment in research, development, and invention means we're always ready to solve the toughest challenges alongside our customers.

Corning's Display Technologies segment manufactures glass substrates for active matrix liquid crystal displays ("LCDs") that are used primarily in LCD televisions, notebook computers and flat panel desktop monitors.

Software Applications Specialist, Division Quality

Scope of Position:

██████████ member, participant in the management, maintenance, and production support of the division Product Lifecycle Management (PLM) system. Participate in the requirements gathering, design, development and implementation of Product Lifecycle Management system and related modules

Day to Day Responsibilities:

██████████

Business Administration experience in Product Lifecycle Management for discrete products in platforms such as Windchill, Teamcenter, Agile, SAP-PLM, etc.

Experience in product structuring, process development, process evaluation, quality management, process management, and production floor.

Experience in programming (Java) and generating reports (SQL).

Project management skills and experience in software development, requirements gathering, development, test, and transition to production.

Experience working with and managing CAD systems. Prefer Creo, SolidWorks, NX and AutoCAD.

IT Help Desk experience – diagnose and solve user reported system problems.

Software testing experience – Prepare test plans, conduct tests, report results, and work with the team to resolve issues.

Strong communication and interpersonal skills.

Computer application training experience – prepare training material and conduct user training in person or via web-conference.

Flexibility to work with multiple cultures and time zones and with users at all levels in the division (executives to factory operators).

High initiate, self-motivation, and ability to work in multi-national matrix organization.

Bilingual with English (plus Polish, German, French, Chinese, Portuguese, Spanish, Turkish)
