Company: Lionbridge

Location: Mexico City

Category: computer-and-mathematical

Software Engineer

Mexico City, Mexico

Software Engineer (.NET/Angular)

Lionbridge is seeking a talented individual to work as a Senior Software Engineer. You will be a full-stack developer, comfortable reviewing code and making architectural decisions. Unit testing and refactoring is the norm in your day-to-day development activities. Educating and mentoring less skilled team members should come naturally.

What You Will Do

Taking high-level business requirements and producing technical specifications, architecture designs, and ultimately code

Development of production quality code. Understanding and implementing design patterns.

Writing unit and integration tests

Participating in product requirement and design reviews

Ensuring the highest level of technical quality, security, scalability, and stability in all products and teams that you are part of

Mentoring more junior engineers through code reviews and 1-on-1 sessions

To Be Successful You Will Have

8+ years of experience developing full-stack web-based software using .Net Framework and

.Net Core.

3+ years of experience with Angular and having worked with version 8. Experienced with Git

Experienced in building cloud-based solutions running on Azure Cloud platform.

Understand the importance of code reviews and use them in your current role.

Experienced with and currently using Test Driven Development.

Experienced with microservice architecture and container orchestration.
