## Solution Architect

Calling all tech wizards!

We're on the lookout for a Solution Architect superstar who's a whiz with Microsoft Power Platform and SharePoint. Our team is global, ambitious, and perpetually hungry for tech knowledge. If you're passionate about designing, building, and tinkering with tech to create innovative solutions, you're the teammate we're searching for!

At Nouryon, our global team of Changemakers takes positive action every day, to reach higher collectively and individually. We create innovative and sustainable solutions for our customers to answer society's needs – today and in the future.

### **In your future role as Solution Architect you will**

Design and develop state-of-the-art solutions using Microsoft Power Platform (Power Apps, Power Automate, Power BI, Power Virtual Agents) and SharePoint

Be our tech interpreter! Work with stakeholders to convert their needs into functional and non-functional requirements.

Guide us towards scalability, reliability, and security. Your expertise will ensure our systems are unparalleled.

Chart our tech future! Develop technical roadmaps for upcoming implementations.

Ensure we're adhering to architecture, standards, and practices.

Be our tech trendsetter! Recommend tools, technologies, and processes to keep our

product platform leading the pack.

Team up with our project management team to deliver projects on time and within budget.

Efficiency is our mantra!

Mentor our developers and engineers. Sharing knowledge is our superpower!

Implement and manage document management systems using SharePoint.

### **We believe you bring**

General IT Interest - A keen interest in digital technology and Microsoft platforms is a must.

Core Consulting Skills - You consult with others on problems and activities, collect information from a variety of sources, and ask effective questions to perform your job.

User Experience - You're mindful of issues impacting customer satisfaction and view things from the end-user perspective.

Taking Responsibility - You're accountable for delivering on commitments, owning mistakes and using them as learning opportunities.

Platform Integration - You have the knowledge and capability to use platforms and integrate applications, ensuring the integration between systems and separate components function as one ecosystem.

### **Qualifications**

Bachelor's degree in Computer Science, Information Technology, or a related field.

Proven experience as a Solution Architect or similar role.

Extensive experience with Microsoft Power Platform and SharePoint.

Experience from development and query languages (PowerShell, C#, Kusto, Power Query)

Understanding of software development lifecycle (SDLC).

Familiarity with data governance principles and compliance frameworks.

Experience of working with agile methodologies.

Excellent communication skills in English - can you make tech lingo fun and understandable

to peers and stakeholders?

Problem-solving skills that would make a detective envious.

Willingness and ability to travel occasionally to international locations including the USA, Netherlands, Sweden, and India.

Microsoft Certified: Power Platform Solution Architect Expert certification and experience of implementing Copilot is a plus!

We offer a competitive salary, benefits, and a thrilling work environment. If you're a tech enthusiast with a knack for innovation and you're ready to join a team that's making a global impact, we're eager to meet you!
